WHOLESALE LIST for THE NURSERY TRADE

★ **Finished: Shrubs, Shade
Trees, Fruit Trees and
Evergreens**

* **LINING OUT SHRUBS, EVERGREENS,
SHADE TREES, VINES, GRAFTS.**

This list is not as complete as usual and the quantities are small. We endeavor to distribute the material as far as it will go.

Members of

**American Association of Nurserymen
Ohio Nurserymen's Association
Michigan Nurserymen's Association
Indiana Nurserymen's Association**

We ship by B. & O., N.Y.C. or Penna. Railroads — by Truck Line Freight or Railway Express. We suggest that for the present emergency you call for bulky shipments to speed delivery and conserve packing materials. We do not guarantee that we will be able to pack all orders of bulky material.

TERMS

This list cancels all previous lists and due to war and labor conditions prices are subject to change without notice.

Thirty days net to parties of approved credit established in advance of shipment, discount for cash in advance of shipment 3%; 2% for payment within 10 days; 30 days net. C.O.D. orders must be accompanied by $\frac{1}{4}$ cash deposit. Boxing and baling are charged for at cost. Car loads and truck loads packed free. When cash accompanies order, boxing will be billed to those of established credit, otherwise boxing charges will be sent C.O.D. with shipment.

Five or more plants will be charged at the ten rate, twenty-five or more at the 100 rate, except items of lining out stock tied in bundles of 50. On long assorted lists of lining out stock where quantities are less than 50, a higher price may be charged. Less than 5 will be charged 25% higher than the 10 rate. Any possible claims for rejection or deficiency must be made within 5 days after arrival of stock. All shipments travel at cost and risk of the purchaser.

EVERGREEN GRAFTS

These grafts are out of 2¼" and 2½" deep rose pots and are on strong, well established understocks of the same families, ie: Junipers are grafted on Juniperus understocks only.

For shipment we wrap the pot balls individually in sphagnum moss, then in waxed paper to preserve the moisture and prevent undue breakage of the ball. We know of no better method of packing grafts.

GLOBE BARBERRY

(Plant Patent No. 189)

(*Berberis thunbergi nana*)

See Prof. Chadwick's Select List of Shrubs

Ordinary Barberry

Berberis nana
(Natural Shape)

This is a low, slow growing and compact sport of the well known hardy Barberry. It's compact, tight growth makes a trim appearance without shearing. This plant never gets out of hand as do common Barberry plants and the foliage is better than that of the parent and it has the same kind and color fruits. Its appearance is somewhat like that of a dwarf Holly or Azalea. It is undoubtedly the best permanently dwarf deciduous plant for low hedges and borders because of its dwarfness, hardiness and general permanence.

This is the first time this plant has been offered for sale. Due to its slow growth the purchaser is assured of maintenance of the present price schedule. It is suggested that as large sizes cannot well be shipped these grades be planted out for growth on as specimens.
